INTRODUCTION

This study is an academic research project, designed to meet the requirement of completion of the Postgraduate Course in Sports Management, offered by the College Claretian - University Center. The study aims to bring the awareness of society about the importance of physical education professional in the organization and realization of Sporting Events in the Social Sector, project carried out in the sports court of the State School Placido de Castro, in Jaru inside of Rondônia, in the year 2015.

This project will be handled on a social action, as Solidarity Tournament in futsal mode, performed by professional Physical Education Daniela Lima Campos, registered with the Federal Council of Physical Education CONFEF/CREF at Nº 001 511-G/RO for teams educational, voluntary and government agencies.

In this work will be reported succinctly experiences from the Organization and Event Holding; Physical Education in Action project is guided by the professional ethics and provision of quality services, focusing on overcoming challenges and social needs. With the main objective to value human relations, interpersonal, focusing on the community through volunteer work.

Currently the professional personal relationships are fragmented, individualistic and the consequence is the lack of commitment, comes up not achieve this purpose. There disengagement relative to each other, especially if this other live in socially vulnerable state, becoming excluded. In this sense, the execution of this project is to show, through concrete actions, the importance of physical education professional in sports event organization providing interaction between the low and upper classes, through sport.

Given this reality arose the indignation and a desire to do something that would lead society and especially public agencies to rethink and focus on the importance of having a qualified professional in Physical Education and accredited in CONFEF/CREF as manager, coordinator or organization of sporting events. Search the right of citizens to have the best services in the sports area.

As a person without academic training in physical education can develop tournaments and sporting events, their pedagogical action without knowing and respecting the biological individualities of human beings, no one knows how it will comply?

From these questions there was a need to think about organizing an event with the project: I Physical Education in Action.

The aim of this work contribute to mitigate the devaluation of the professional of Physical Education, allowing the development of projects, actions for community that prioritizes the physical integrity of the person, backed the ethics of professional physical education, engaged with hope of a change in society, and these actions are strengthened, with the support of companies, public agencies and community.

EVENT

This meeting was based on the words of Miriam Abramovay, which says, "in the social sphere, the sport has educational role in an individual's formation process, stressing discipline, respect for hierarchy and the" rules of the game ", solidarity , team spirit and other human development factors. "

In the economic sphere, the sport involves a lot of financial resources; moves a large and diversified manufacturer specializing in the production of sports equipment, uniforms, protective equipment and footwear, among others.

Miriam Abramovay says - Community Sport - the vast majority of the population does not practice any kind of sport. Lack awareness and awareness campaigns on the importance of sports. The network of clubs is insufficient to meet the demand of the population. In high performance sport, many achievements of the Brazilian sports are talent goods and personal determination of some athletes and coaches.

The execution of the event is aimed at enhancement of the professional of Physical Education, providing leisure, culture and sport through this project. The event was directed at an audience of children, youth, teens, Community Jaruense to reflect on the benefits that well-guided sport brings to human life.

It followed the protocol from project design to implementation. Official documents were referred to local government, asking for the relevant bodies to carry out the release tournament.

The public chosen to participate in sports activities - indoor soccer tournament - was by lot, being in the age groups 12-18 years.

Table 1 - Characterization of Participants

Category	Age Group	Suit
Children	2001 a 2003	Male
Youth	1999 a 2000	Male
Youth	1998 a 2000	Female
Juniors	1997 a 1998	Male
In the four categories were entered 52 teams, with numbers 8 -10 players on each team.		

Enrollment was open to be made by schools or private, according to the requirement to follow the event schedules and with specific regulations for the tournament.

THE MANAGER AND SPORT MANAGEMENT

According to Pires and Sarmento (2001), sports management is an area of knowledge that has generated profound changes in sports, exercising strong influence on the practices currently performed. These changes undergone by the sport have considerably changed the academic education of the generations that are coming out of colleges.

One sees the growth of this area of knowledge passing showing the importance of the professional of Physical Education and Sports Manager.

The Featured project for pioneering the sporting aspect, the project "Physical Education in Action" was held on October 30, 2015 Friday at the sports court of the State School Placido de Castro. Brought highly positive results. All professionals involved worked voluntarily, bringing the spirit of mutual cooperation between the Physical Education professionals in Jaru.

The realization of the project was a partnership with the Bar Association of Brazil - Brazilian Bar Association - Subsection Jaru, Renewed Presbyterian Church, Federal Council of Physical Education-CONFEF / CREF and Physical Education Professionals.

The opening of the competition began with the presence of children aged 8 to 10 years participating in Category Mirim and both teams received medals for participation in the tournament. Altogether 52 teams were entered averaging 8-10 players on each team, in the categories: child, female youth, male youth and juniors; accounting for approximately 480 children and adolescents 12-18 years competing.

It estimated the presence of 750 people at the tournament. During the event they were drawn several gifts, balls, bags, sporting goods, Bibles donated by schools and companies supporting the event.

The State School of Costa Junior Governador Jorge Teixeira / Rondônia was represented by Professor Anderson Ortega accompanied by a caravan of 40 students enrolled in the four modalities. During the competition, there was a cultural presentation with Angolinha capoeira group led by instructor Alex Magalhaes. On that occasion was an interaction between students, teachers and audience who ventured to practice coop mode. The event was attended by teachers of Physical Education, Fire Department, Military Police, security guards, nurses, Academic Education Jaruenses Physics and the city of Porto Velho, minor volunteers and support from Jaru Prefecture. For example, the effort and dedication in bringing students from another municipality to attend the event, it is necessary to register through this photo bulwark in elementary education. SOCIAL

With the active participation of students and teachers, were collected non-perishable foods that have been reverted to the students of the AABB Community of Jaru program, benefiting 100 students enrolled in the project that assists children and adolescents aged 6 to 18 years incomplete, students network public education and belonging to families in situations of social vulnerability.

The purpose of collecting non-perishable food in this tournament was to fulfill a social obligation; because, as stated Monica Araujo Gomes and Maria Lucia Duarte Pereira cite Petrini (2003) that "as the family finds it difficult to satisfactorily fulfill their basic tasks of socialization and support / services to its members, it creates situations of vulnerability" . The family life to be effective and efficient depends on conditions for their support and maintenance of their ties. It is up to society help to reduce these risks vulnerability.

Weaknesses: The choice of date is not supported in the execution of the project, due to be marked the event on October 30, 2015. This day was celebrated the day of the public official. The state of Rondonia transferred Day holiday the civil servant from 28 to 30 October (Friday), with this many professionals of Physical Education could not attend the event because it is in other celebratory events commemorating the day.

Lacked support from competent authorities in the item presence, since the project was not politically motivated and run the project without a bond, it has become more difficult to raise financial funds, however, the budget given to the successful event .

Given the difficulties, it was considered feasible to carry out sporting events in the social area because the sport being guided by responsible professionals can bring great benefits to society.

The physical education professional as Sports Manager plays an important role and occupies a significant place in society, showing actions necessary in organizing events, generating scientific knowledge opportunities, theoretical and practical safely. In the event held in Jaru, did not escape the rule. Professionals involved developed planning and work actions guided by ethics, professionalism, competence, respect for biological individuality and social responsibility. Through the services provided, appreciated life on quality and not quantity.

In this context it is given the importance of this event to show society on the importance of physical education professional as Manager in organizing and conducting of sporting events in the social area. The profile of the professional in question met the needs of society because the population needs in the social area sporting events organized by a competent manager who is qualified and Accredited in the Federal Council of Physical Education. Therefore, it has been proven and has become indispensable in the management and realization of sporting events the importance of physical education professional. Through a literature review based on specific publications on sports management, showing the importance of physical education professional as Manager in organizing and conducting of sporting events in the social area, the organizing team followed to the letter the role of each in your specifications. From the event organization experience, and data collected and presented in the initial research it is concluded that the First Physical Education in Action (Solidarity Tournament) in the form of Futsal - 2015 was a planned and clearly defined objectives event. It confirmed the importance of the professional of Physical Education Organization and Realization of Sports Events in the Social Sector. Like any successful event, it is clear also that to carry out this event it is necessary to follow a schedule with planned actions and follow it to the letter. It should also be noted bureaucratic issues, guided by the ethics and principles to life, so that the goal of integration, cooperation and solidarity among the participants and the community are met. It can be seen that by performing the Solidarity Tournament for meeting simple and indispensable goals conducting sporting events related to human need, such as volunteer work, share emotions; leisure, culture, sports and more.

FINAL CONSIDERATIONS

It is concluded as soon as the event's harmony was due to some basic fundamentals of management: planning, organization, achievement, leadership, that those pleas were sent in search of the goals set and achieved.

Hope though respondents consider it as something abstract in teacher education, without it, it is impossible the announcement of a future, more human. According to Freire (1996, p.72): Hopelessness is the denial of hope.

But it has to fight in the present and the future, seek education with dignity. According Dear (2004, p.99): "These educators are closer to the social problems, and their experiences can be to meaningful solutions for the planning of public policies and for a more just and egalitarian society."
